Job Announcement

Position Title: Key System/Central Office Technician
Department: Central Office
Reports To: Central Office Supervisor
FLSA Status: Non-Exempt
Wage: D.O.E.

Full Time Position with benefits: Paid Time Off, Medical Insurance, 401k Plan

General Summary:

Responsible for providing various technical services to include the installation, testing, repair, maintenance, and day-to-day technical support of new and existing communication systems (telephone, key systems, DSL, Special Circuits, etc.) and related telecommunications cabling and wiring infrastructure within our service area.

Essential Job Functions:

- Assist in the development and implementation of customer training for basic Key System programming. Assist in the marketing and selling of Key System equipment and Maintenance Agreements.
- Testing and troubleshooting Digital and Softswitch equipment. Set up and troubleshoot Dial Tone, DSL, and Special Circuits. Test and troubleshoot Microwave Radio, BLC, DLC, ISP equipment.
- Maintain DC Power and Standby power equipment. Test and troubleshoot customer PC and Network setups and equipment.
- Complete all assigned work in a timely and professional manner. Gather information and complete reports as assigned. Maintain inventory of assigned tools and equipment, complete Inventory and Equipment Issuance forms and reports.
- Interface with customers in a professional manner. Maintain professional attitude and appearance.
- Participate in rotating On-Call duties.
- Accept and complete other duties and responsibilities as assigned by Management.*

*These tasks do not meet the Americans with Disabilities Act definition of essential job functions and are usually less than 5% of time spent. However, these tasks still constitute important performance aspects of the job.

Knowledge, Skills, and Abilities:

- Knowledge of telecommunications industry and digital switching technology.
- Knowledge of Key Systems and Central Office equipment.
- Knowledge of company products and services.
- Knowledge of company policies and procedures.
- Knowledge of industry regulations.
- Skill in operating Key Systems and Central Office switching equipment.
- Skill in analytical thinking and problem solving.
- Ability to communicate with co-workers and various business contacts in a professional and courteous manner.
- Ability to develop and justify budget objectives.
- Ability to read and interpret documents such as schematics, blueprints and circuit diagrams.
- Ability to pay close attention to detail.
- Ability to evaluate, test, and repair sophisticated equipment.
- Ability to improve or redesign procedures for specific installation/repair problems.
- Ability to work independently and make sound technical decisions using information at hand.
- Ability to create a team environment and sustain employee morale.

Education and Experience:

Associates degree in Telecommunications, Information Technology or equivalent technical training and experience. Network + certification, PBX and or Key Systems installation and maintenance experience is a plus. Working knowledge of Cisco systems to include Cisco certifications and ISP experience is preferred.
